

Priorities

Shamra

That enormous ego
That you got
I fed it
Drove you
Saw the clock
I sped it
Called you
And you left me hanging again
So, why you gotta make me the caboose?
You're too high
And I'm too low
(On your list of priorities)
You're too high
I'm too low
(On your list of priorities)
Next week
Is my...ah forget it
This week
Is my...ah forget it
Last week
Was my...ah forget it
I get it
So, why you gotta make me the caboose?
You're too high
And I'm too low
(On your list of priorities)
You're too high
I'm too low
(On your list of priorities)
Am I your superfreak?
Can I be your superfreak?
Am I your superfreak
Tell me I'm your superfreak
Next week
Is your...ah forget it
This week
Was your...ah forget it
Last week
Was your...ah forget it

You get it?
Now, I'm gonna make you the caboose
I'm so high
And you're so low
(On my list of priorities)
I'm so high
You're so low
(On my list of priorities)
