

No One Comes Close

[John Farnham](#)

E mcuster
You gave me your cool hand, luke warm reception
It's been such a long time, still there on the platform
What can an old flame do,
But talk about just what's new
Things that have happened since you went away
No one, no one comes close
Someone maybe will come my way, until that day
No one comes close to you
I see you in all those up market movies
You talk on the talk shows, I stare at the tv
What can an old friend say
I know you don't feel this way
I'm taking this chance today, to let you know
