Time to Remember

Boney M.

I tried so very hard not to cry
I kept hanging around to forget all the good things
We both used to do
(Time to remember the nights without you)No, no, no one can take your place, how I love
I miss your embrace, I'm a prisoner of love
Waiting for you it's true
(Time to remember, I'm lost without you)
Time to remember the nights without you)Oh, let's get it together, I know that you'll soon understand
We're wasting time 'cause love's hard to find
Oh, how could we both be so blind? Oh, babeI've been losing control, I've been told
But I, I must touch your soul
If I go out with you, I don't mind if I do
(Time to remember I'm lost without you)I tried so very hard not to cry
I kept hanging around to forget all the good things
We both used to do
(Time to remember the nights without you)No, no, no one can take your place, how I love
I miss your embrace, I'm a prisoner of love, waiting for you it's true
(Time to remember I'm lost without you)
Time to remember the nights without you
(Time to remember the nights without you)
