# Blow It All Away

## Sia

Without a sound ever heard
Without a lesson I have learned
You are foolish
And diluted
Too many lies have you burned
Where there's eyes to be found
This seems life's underground
But even if you had it all
You would find
I could never let you stay
'Cause you blow it all away
You blow it al away
Blow it all away
If you go
I will stall
Yes I see it
Yes I feel it
You have no oppressions at all
But if life is truly devoured
I'll strip your bare 'till the truth comes out

But even if you had it all
You would find
You blow it all
You blow it all away
Blow it all away
Blow it all, blow it all, blow it all... away
Forever is your mind to be naive
Remember it will bring us to our years
You blow it all away
But even if you had it all
You would find
You blow it all
You blow it all away
Blow it all away
Blow it all, blow it all, blow it all
Blow it all, blow it all, blow it all
Blow it all away
Blow it all away

Blow it all away
You blow it all away
