Start the Night

Lower Class Brats

I just spent 8 hours in hell
Just to attempt to pay my bills
And I can't seem to take it anymore
My feet hurt my back is bent
Just to attempt to pay my rent
But they'll never drag me to the floor[Chorus:]
Come on down now
Let's hang out now
I feel alright
Come on down now
Let's hang out now
Let's start the nightI'll tell my boss to kiss my ass
A middle finger from the working class
Then tell him that I demand a raise
We've all been down that road before
For $5.00 and hour you're a whore
But the day is done so let's go out and play
