Under My Tree

*NSYNC

It's that time of year, Christmas is here
Everybody's back together again
Spreading the joy, spreading the cheer
Toasting to another year's end
So thankful for all of my friends, ohWhen the party is over, the night's just begun
I promise the best part is yet to come
Slow dance together two become one
That's what we've waited all day forNo one else but me and you, nothin' I would rather do
Than hold you all through the night under my tree
Bring along the mistletoe, keep the music nice and low
I'll show how good it could be
I wish that Santa could be here to see
It's beautiful under my treeThe fire's aglow, we've got Nat King Cole
Singing us a song from his heart
Sleigh bells and snow
Makes us feel close to the starsWhen the carols are sung and the fire has died
The embers still burns with the love in our eyes
Cherish the moment, savor the night
That's what we've waited all day forNo one else but me and you, nothin' I would rather do
Than hold you all through the night under my tree
Bring along the mistletoe, keep the music nice and low
I'll show you how good it could be
I wish that Santa could be here to see
It's beautiful under my treeNo one but me, no one but you
Sweet rendezvous under my tree
No one but me, no one but youWhen the party is over, the night's just begun
I promise the best part is, yet to come
We slow dance together, two become one
That's what we've waited all day forNo one else but me and you, nothin' I would rather do
Than hold you all through the night under my tree
Bring along the mistletoe, keep the music nice and low
I'll show you how good it could be
I wish that Santa could be here to see
I wish that Santa could be here to seeNo one else but me and you, nothin' I would rather do
Than make all your dreams come true under my tree
Such a cozy rendezvous, just relax, enjoy the view
I'll show you how good it could be
I wish that Santa could be here to see
It's beautiful, beautiful, beautiful under my treeIt's that time of year, Christmas is here

Christmas is here under my tree
It's that time of year Christmas is here
Full of love and good cheer
