Magic Love

Bent

We've been here before
Like a book I read
In the hall that leads to the door
My words hang in the airWhen I spoke to you
I believe it's magic, magic
In the hall that leads to the door
And my words hang in the airI believe it's magic, I believe it's magic
I believe it's magic, magic
I believe it's magic, I believe it's magic
I believe it's magic, magicWe've been here before
Like a book I read
In the hall that leads to the door
My words hang in the airWhen I spoke to you
I believe it's magic, magic
In the hall that leads to the door
And my words hang in the airI believe it's magic, I believe it's magic
I believe it's magic, magic
I believe it's magic, I believe it's magic
I believe it's magic, magicI believe it's magic, I believe it's magic
I believe it's magic, magic
I believe it's magic, I believe it's magic
I believe it's magic, magicAnd my words hang
And my words hang
My words hang
