

# Vixen

## Gyptian featuring Angela Hunte

Let's play a little game  
Just between you and I  
Obviously physical  
You gotta use your mind  
We can be cops and robbers  
Tarzan and Jane, Marilyn and Robert  
But either way the objective is the same  
To please and entertain  
You can be my vixen  
My bed'll be your stage  
You will get the spotlight all night  
Each and every time we play  
You will be my vixen  
As we improvise  
Delivering a captivating performance every time [Repeat]  
Why not be creative  
Pull out all the stops  
You can pick the scene  
If I can pick the props  
Do you prefer classroom or office  
Masquerade expert or novice  
We can play  
The objective is the same  
  
To please and entertain  
You will be my vixen  
My bed'll be your stage  
You will get the spotlight all night  
Each and every time we play  
You will be my vixen  
As we improvise  
Delivering a captivating performance every time [Repeat]  
Baby together we can't lose  
And I know you're always down for something new  
When we're making love let's put on a show  
Until the curtains close  
You will be my vixen  
My bed'll be your stage  
You will get the spotlight all night

Each and every time we play  
You will be my vixen  
As we improvise  
Delivering a captivating performance every time [Repeat]  
You'll be my vixen  
You always said you wanted to become an actress
