

Hold On

Les Fleur de Lys

You say you love me
but you don't know why
I can see it there by the look in your eye
do yourself a favor and count me in
doesn't cost much boy and it's easy to win

I can help you hold on
everything you do is wrong
oh it's easy to face the music if you know the style

in your nightlife baby seem to sing forever
with sleepy people you're all together
by the mist from your eyes you don't seem too well
but the world has got you under its spell

I can help you hold on
everything you do is wrong
oh it's easy to face the music if you know the style

Hold on

you say you love me
but you don't know why
I can see it there by the look in your eye
do yourself a favor and count me in
doesn't cost much boy and it's easy to win

I can help you hold on
everything you do is wrong
oh it's easy to face the music if you know the style
