Cuts You Up

Static-x

I make no apologies for the past
I had to live, throw it all
To get where I am, **** it all
If you don't like what I am
Then don't you look at me
Who ever made you a God?
Who ever gave you the right
To criticize, take another slice?
Cut out, shut out, run out
Tear digital noise out
It cuts you up, cuts you up
Heavy hate will feed it
Sharp sized razor bleed it
It cuts you up, cuts you up
It cuts you up
I take no bull**** in the past
I took it all, never again
Shut it up, put it out
If you can't handle this ****
Then don't you stick around
What I became is stronger
What I have made
You cannot criticize new-found eyes
Cut out, shut out, run out
Tear digital noise out
It cuts you up, cuts you up
Heavy hate will feed it
Sharp sized razor bleed it
It cuts you up, cuts you up
It cuts you up
I take no bull**** in the past
I took it all, never again
Shut it up, put it out
If you can't handle this ****
Then don't you stick around
What I became is stronger
What I have made
You cannot criticize, take another slice
Cut out, shut out, run out

Tear digital noise out
It cuts you up, cuts you up
Heavy hate will feed it
Sharp sized razor bleed it
It cuts you up, cuts you up
Cuts you, cuts you up
