

Gone (.grav3s Version)

Red

Disappear, without a trace
A treasure lost, I can't replace
The only piece that still remains
Is in these scars, is in this pain I want to save it all
I want to take it all
My heart is holding on
I bleed, I bleed for love When I'm gone
When I fade away
Is the air I breathe my only legacy
When I'm gone
In the dark, I am a flame
A passing light, all in vain
I feel the pull, I feel a change
It's over now, it slips away I want to save it all
I want to take it all
My heart is holding on
I bleed, I bleed for love When I'm gone
When I fade away
Is the air I breathe my only legacy
When I'm gone (When I'm gone)
(When I'm gone) I want to save it all
I want to take it all
My heart is holding on
I bleed, I bleed for love
When I'm gone
When I fade away
Is the air I breathe my only legacy
When I'm gone (When I'm gone)
(When I'm gone)
