Cool Down

Triumph

Woman turn my head around
Woman my whole world's upside down
You come into my life and you tear it all apart
You can't put out the fire once it starts
'Til there's nothin' left to burn inside my heartCut the cards, watch her deal
She got nerves of steel
Play with fire when you play her game
Love's desire feeds the flame
I realize, I'm terrified
She's so hot, can't stopCool down, cool down
You make me crazy
Makin' me hot, I gotta stop
I need a shotNothin' you can do or say
Can make her change her way, yeah
Burn me up such a big shot girl
Got a one way ticket to a white hot world
I got the fever down to the bone
I'm on my knees, please, leave me aloneCool down, cool down, crazy, crazy
Makin' me got, I gotta stop
'Cause I need a shot
I'm on fire burnin' all the timeCool down, cool down
Down, down, cool down, yeah
