

Zoom

Tata Young

Zoom Zoom in under my skin
Gotta slow down now to begin
Baby don't rush
You can look but don't touch You think you know
When you see me in my videos
How the story goes
But that's just the side that I expose Look through the lens
You see my body, not who I am...
So don't pretend
And try to act like you're my boyfriend [Pre-Chorus]
You wanna get somewhere
Then boy don't touch me there
Just get up close and personal, personal [Chorus]
Zoom Zoom in under my skin
Gotta slow down now to begin
Baby don't rush
You can look but don't touch
Zoom zoom in... to my head
Gotta want me and not my bed
Boy, prove your love
You can look but don't touch You won't behave
Your hands are all over the place
Barely know your name
You're tryin' to score but it's not a game Boy get a clue
Yeah, u gotta spend the time, pay your dues
Following the rules
If you want me to want to be with you [Pre-Chorus] [Chorus x2] Don't you dare
Touch me there
If you want to get somewhere Zoom in get to know me, boy, don't rush
Zoom in if you want me, boy, don't touch [Chorus x2]
