

Easy Day (Radio Edit)

Bananafishbones

Put my black plastic security suit on my gasmask
Leave the cellar and go to work
Afraid to be poisoned or trampled
By this huge machineryAnd I think to myself
 What fuck above
 Do I have to thank
That I'm here to liveIn this shit I don't
 Want to complain about
 The acid rain 'cause it's
Nice compared to thisPoison Air
 And I wish I could just
 Once see the moon
One gorgeous showSo I take it off
 Yeah that's feeling good
 Though I'm deeply sick
Right awayIt's like dancing in the sun
 Having trouble having fun
 Having anything you wish to come
Then it finally smiles your wayAnd you have an easy day
 It's time to have an easy day
 What the hell
This must be an antique supermarketWhat am I doing here
 God, these people drinking milk
 But the clothes they wear
Look rather cool to meAnd I wear the same
 What am I doing here?
 Excuse me, Sir, can you help me out?
I want to bake a cake but I don't know howNo, I don't but I'm sure I will
 So what do we need
 For your bakery?
It's like dancing in the sunHaving trouble having fun
 Having anything you wish to come
 Then it finally smiles your way
And you have an easy dayIt's time to have an easy day
