

You're Gonna Miss My Love

[Mark Selby](#)

I hear you talkin' on the telephone
Say you'd be better off on your own
One day I'll wake up and you'll be gone
Well that's all right
'Cause I can tell you that it won't be long
You're gonna find yourself singin' a different song
You'll finally see the light
Baby go ahead and dream
In the end it's gonna be the same
When you wake up and call my nameChorus:
You're gonna miss my love
No matter what you say
You can fool yourself
Until your dyin' day
But you'll come to your senses
When push comes to shove
You're gonna miss my loveYou think it's easy to change your mind
It seems so simple but the bottom line is
You'll never find another love like mine
No matter what you do
You keep cryin' 'bout the love we lack
Soon as it's gone you'll be beggln' to get it back
Well you know that's true
Go on ahead and run
I know you're bent on breakin' free
But when you look back I know you'll finally see(Repeat Chorus)
