Curtain

Matthew West

Well, I've been catching up on daydreams
Yeah, I've been lost all afternoon
'Cause I've been imagining a future
In a world of only you, in a world of only you
When the curtain falls down on me
I will be free, I will be free
When the curtain falls down on me
I believe I will be free, free, oh, no, no
See, I get so stuck here in the shadows
Where it's hard to escape this gravity
This life is heavy now but I know, yes, I know
That someday gravity's gonna lose it's grip on me
When the curtain falls down on me
I will be free, I will be free
When the curtain falls down on me
See, I believe I will be free, free to fly away
I'm free to fly away, yeah
Well, the show's not over, but I know how it ends
I know how it ends
When this dream becomes reality
It is no mystery where I will be
When the curtain falls down on me
I will be free, I will be free
When the curtain falls down on me
I will be free, I will be free, I will be free
When the curtain falls down on me
Well, I believe I will be free, free to fly away
I'm free to fly away, free to fly away, free to fly away
Oh, wow, look at me now, leaving the ground, up in the cloud
So high, up in the sky
It's time to fly away, fly away
I'm free to fly high away, I'm free to fly
