

# Kingdom (Ralphie Rosarios Queendom Dub)

**Dave Gahan**

Can you feel me coming  
Open the door it's only me  
I have that desperate feeling  
In trouble is where I'm going to be If there's a kingdom beyond it all  
Is there a God who loves us all  
Do we believe in love at all  
I'm still pretending, I'm not a fool So in your infinite wisdom  
Show me how this life should be  
With all your love and glory  
Doesn't mean that much to me If there's a kingdom beyond it all  
Is there a God who loves us all  
Do we believe in love at all  
I'm still pretending, I'm not a fool
