Hanging On A Star

Sugababes

Tell me baby, baby
Tell me baby
Tell me what you want
Tell me what you wantYou know you drive me crazy
Drive me crazy
I've been waiting all day long
Waiting all day longI've got a little crush
Your body's such a rush
So won't you hurry up
'Cause I want to get
Up right on, yeahIt's getting hotter now
Why don't you cool me down
Then I can show you how
To make a little fire burn longerHanging on a star
I was waiting 'round
To fall in love
And now I know I'm ready'Cause, no matter where you are
It was you that I've been thinking of
And now my star has fallen for youListen to me baby, listen baby
You're always on my mind
Always on my mindI know you wanna kiss me
Wanna kiss me
You're running out of time
Running out of timeI don't know what you've heard
Maybe a little bird
Gave you the wrong idea
Your not gonna get my numberBut they don't have a clue
How much I feel for you
So what you wanna do
'Cause I'm not gonna
Wait much longerHanging on a star
I was waiting 'round
To fall in love
And now I know I'm ready'Cause, no matter where you are
It was you that I've been thinking of
And now that star has fallen for youHanging on a star
I was waiting round
To fall in love
And now I know I'm ready'Cause, no matter where you are

It was you that I've been thinking of
And now that star has fallen for youI've been dreaming
All day and all night
Hoping that I will
One day have youI don't care
If it's wrong or right
Will my fantasy
Ever come true?'Cause I'm hanging
Hanging, hanging, hanging
'Cause I'm hanging, hanging
I'm hanging, hangingHanging on a star
I was waiting round
To fall in love
And now I know I'm ready'Cause, no matter where you are
It was you that I've been thinking of
And now that star has fallen for youHanging on a star
I was waiting round
To fall in love
And now I know I'm ready'Cause, no matter where you are
It was you that I've been thinking of
And now that star has fallen for you
