

# Wake-Up Call

[AFI](#)

If I had my way I'd wish them away  
But I can't find the magic inside of me  
I'll give my best 'cause I can give no more  
But your problems aren't solved so easily I'm not someone that you should run to  
I've been often as broken as you  
More often than you'd like me to If I could heal all the pain that you feel  
I'd gladly cure all that ails you inside  
Unfortunately I have no degree  
And I cannot anesthetize I'm not someone that you should run to  
I've been often as broken as you  
More often than you'd like me to Whoa, I wish that I could help you  
Whoa, I can't even help myself  
Whoa, it seems you need a saving grace  
And a savior's something I'm not Right Whoa, I wish that I could help you  
Whoa, I can't even help myself  
Whoa, it seems you need a saving grace  
And a savior's something I'm not
