

# Slip Slide On By

Valerie June

What you believe  
You give and receive  
You patiently wait  
Or hurry towards fate Well, you tapped into time  
With luck on your side  
And ask no questions why  
You just slip slide on by No question why  
You just slip slide on  
You slip slide on by Well, I knock at your door  
Gather your heart from the floor  
When no answers come  
Ever still, never run No question why  
You just slip slide on  
You slip slide on by No question why  
You just slip slide on  
You slip slide on by Sometimes I get the feelin'  
That I might be with you tomorrow  
Tomorrow  
Tomorrow  
Tomorrow And you need  
And you need me  
I need you So don't question why  
You just slip slide on  
You slip slide on by No question why  
You just slip slide on  
Slip slide on by No question why  
You just slip slide on  
You slip slide on by
