

Slip Slide On By

Valerie June

What you believe
You give and receive
You patiently wait
Or hurry towards fate Well, you tapped into time
With luck on your side
And ask no questions why
You just slip slide on by No question why
You just slip slide on
You slip slide on by Well, I knock at your door
Gather your heart from the floor
When no answers come
Ever still, never run No question why
You just slip slide on
You slip slide on by No question why
You just slip slide on
You slip slide on by Sometimes I get the feelin'
That I might be with you tomorrow
Tomorrow
Tomorrow
Tomorrow And you need
And you need me
I need you So don't question why
You just slip slide on
You slip slide on by No question why
You just slip slide on
Slip slide on by No question why
You just slip slide on
You slip slide on by
