

Brutal

New Order

Sometimes I feel that you're a part of me
Although it don't seem real, it's how I want it to be
 But if you can't stay then I'll understand
You're just sawdust in my empty handIf you can't decide, I'll still be true
 Just open wide, I'm here for youAnd if you think that you've found
 A gentle sound, where love breaks down
 It's alright and if you can't overcome
What gets you down don't get uptight, it's alrightI'm a shallow man in an hollow land
 On a beaten track under your command
 And the sound in my head goes round and round
Like a drunk on the stairs who just fell downBut now it seems like a distant dream
 When it all lived wrong with our love supreme
 And the sound in my head goes round and round
Like a drunk on the stairs who just fell downAnd if you think that you've found
 A gentle sound where love breaks down
 It's alright and if you can't overcome
What gets you down, don't get uptight, it's alright
