

Love Town (Acoustic Version)

Kolohe Kai

I hope you know I'm listening
I see your heart is glistening up the storm
I know this is the norm but it's all these beautiful
I got to be your friend
or this love will never end as long as we
keep him out of what we've learned and see just like the waves of the sea it's our place will be forever flowing
and oh my sister don't you fear I'm standing right here and never going anywhere so why don't you come on
and let's go down to a special place where love's around and girl you will see the better side of me in love
towntown
in love town
oooo yeah
ooohhhoh the goodness in your heart
how it dives into the sun with every beat
it keeps alive until I've got me my feet
your smile never lies
like your tears in your eyes like this is true
you love me exactly the way that I love you just like the waves of the sea it's our place will be forever flowing
and oh my sister don't you fear I'm standing right here and never going anywhere, anywhere so why don't you
come on and let's go down to a special place where love's around and girl you will see the better side of me in
love towntown
in love town
oooo yeah
ooohhhhand I can't imagine
not seeing your face
cause it's your smile it can't be replaced
yeah
girl you , yeah you bring the best out of me
and I want you to see
how happy we can be so why don't you come on and let's go down to a special place where love's around and
girl you will see the better side of me in love town we'll be dancing in
love town
we'll be loving in
love town
we'll be surfing in
love town
in love town
we'll be dancing in
love town
we'll be loving in

love town
