Becoming Alive (feat. Rockit)

Rockit Gaming

Welcome back inside my laboratory maniac I've been collecting all the body bags the evil dead. Mutilated artificial men scream. Steady hands they're brought to life again breathe. Welcome back these nazi zombies will be built to last. What is it I just created? Building up this undead nation. Becoming alive! Becoming alive! The devil inside! What is it I just created? Building up this undead nation. Becoming alive! Call me the doctor grabbing all the murdered soldiers build a new future put together zombie monsters. Sit down as I strap you to the table watch you squirming around. Keep your hands down as I rip off a limb put your face to the ground. I pull the switch and light the fuse the Devil's workshop. Just watch them twitch! Electrocute the Devil won't stop! I'm a monster call me doctor Straub. Yeah I'll admit that I'm at fault for building up this army that will rip apart your body parts. What is it I just created? Building up this undead nation. Becoming alive! Becoming alive! The devil inside! What is it I just created? Building up this undead nation. Becoming alive... Becoming alive... Becoming alive... Becoming alive... I'm building up this army (Becoming alive) Will this ever end? (Becoming alive) the devil lives inside me hiding rising up this undead nation I won't let them win. What is it I just created? Building up this undead nation. Becoming alive! Becoming alive! The devil inside! What is it I just created? Building up this undead nation. Becoming alive! Becoming alive! The devil inside! What is it I just created? Building up this undead nation. Becoming alive... Becoming alive... Becoming alive... Becoming alive... Becoming alive...
