How To Serve Man

Creature Feature

ounce for ounce
blood for blood
you get a taste
and it's never enough
pound for pound
eye for an eye
you get the thirst
and it never runs dry
peice by peice
bite by bite
relish the flavor
and swallow your plight
inch by inch
slice by slice
dress your guest
and season with vice

plese let me clarify before we begin
am i getting under your skin
your disposition seems a trifle bland
it's time you learned how to serve man
pinch by pinch
dash by dash
braise the passe
and devour the past
day by day
night by night
prepare the course
and savor the spice
please let me clarify before we begin
am i getting under your skin
your disposition seems a trifle bland
it's time you learned how to serve man
