Make Me Wanna

Thomas Rhett

Windows down, country sound, FM on the radio
Just me and you and the man on the moon
Cruisin' down some old back roadNow baby don't you look at me that way
'Cause you know there's only so much I can take
'Cause you make me wannaPull this truck to the side of the road
Slide on over, let me hold you close and tell
You everything I'm thinking
Hop on out and let the tailgate fall
Get drunk on you with no alcohol
If you don't stop I'm gonna
Girl you make me wannaYeah
Hm hmYou know better than to wear that dress
It oughta be against the law, yeah
Plain and simple, girl them dimples
Know just how to turn me onNow baby don't you look at me that way
'Cause you know there's only so much I can take
'Cause you make me wannaPull this truck to the side of the road
Slide on over, let me hold you close and tell
You everything I'm thinking
Hop on out and let the tailgate fall
Get drunk on you with no alcohol
If you don't stop I'm gonna
Girl you make me wannaYou make me wanna
Wake up with you
In the bed of my truck and start
Over again when the sun comes upYou make me wanna
Pull this truck to the side of the road
Slide on over, let me hold you close and tell
You everything I'm thinking
Hop on out and let the tailgate fall
Get drunk on you with no alcohol
If you don't stop I'm gonna
You make me wannaPull this truck to the side of the road
Slide on over, let me hold you close and tell
You everything I'm thinking
Hop on out and let the tailgate fall
Get drunk on you with no alcohol
If you don't stop I'm gonna
Girl you make me wannaYeahWindows down, country sound, FM on the radio
