These Eyes

Deadly Nightshade Botanical Society

These eyes
see the truth
these eyes
provide the proof
these eyes
start to bleed
these eyes
have forsaken me

A way to be alive
lost the means
dream survives
break through apathy
embrace the fever
and the will to be

Awake through my darkness
a ghostly image
in the endless night
awake through my conscence
envy those who can see the light

These eyes
glance aside
these eyes
hard to hide
these eyes
burning bright
these eyes avoid the light

A way to be alive
lost the means
dream survives
break through apathy
embrace the fever
and the will to be

awake through my darkness
a ghostly image in the endless night
break through my concsience

envy those who can see the light.
