My Reality

Proper Einstein

(Chorus)
Right now I'm feeling alright
My future's looking so bright
Reality is daylight
I'd rather stay up all night(2x)

(Verse1)
I gotta dream to fulfill and its time to pursue it
Turn it to reality I'll show you how to do it
Musical genius Ima prove it through my music
You can rent me with utilities included
I'll help you on the way up
Just wait until I wake up
I need for you to wait up
But we can't let them break us

(Chorus)
Right now I'm feeling alright
My future's looking so bright
Reality is daylight
I'd rather stay up all night(2x)

I started from a zero
But now I feel like hero
I never feel like below
Were all the same people
And you can never judge me
Up there is where the judge be
So Ima keep on dreaming
But this is my reality

(Chorus)
Right now I'm feeling alright
My future's looking so bright
Reality is daylight
I'd rather stay up all night(2x)
