

Varsity Weirdos / The Way I Know

The Varsity Weirdos

It's the way I know
It's the way I know
I know you wanna look down on me
Because the way that I am

But it's the way I know
It's the way I know
I tried the best that I could (can?)
Why can't you understand
That maybe I prefer life on the outside
???????????????????? from everything you do (knew?)
???????????????????? and I wish I could let go of mine
cause I know it bothers you
But it's the way I know
It's the way I know
It's not the way that's been taught to me
It's just the way that I am

It's the way I know
It's the way I know
Although I'm ashamed
I'm not interested in change
So you can go and call me narrow minded
But there ain't nothing wrong inside my head
Just doing shots will compensate
For things to which I don't relate
and I don't relate to you

But it's the way I know
I've always known

That I won't ever need no one but me
Just me
And it's the way I know
It's the way I know
It's the way I know
It's just the way I know.
