

# Invisible Friend

**Michael Flynn**

Welcome back again  
I missed you, I killed you  
Invisible friend, one heart that we share  
I'm reaching for a thing that's no longer there  
Nothing don't even exist  
I see you everywhere since you left  
You left me with no answers, and no one to answer this  
Where did you go? I thought for sure it was the end  
I can't make it on my own, don't ever leave me here again
