

# Love or Lose

[Ian Thompson](#)

I'm a poet I'm a writer a season of pain  
A fortune of losses but I remain  
A skeptical believer with reason enough  
That pain without reason is only love I might have seen it in a movie  
I might have read it in the news  
It's all around me in 3D  
Love or lose She's a woman on a mission of hunger and pain  
A fortress of duty but she retains  
A mother's resolution who knows without fuss  
To give without taking is only love I might have seen it in a movie  
I might have read it in the news  
It's all around me in 3D  
Love or lose We're a couple of survivors of plastic and steel  
We pray that tomorrow will reveal  
An end to all this suffering lord knows there's enough  
When all that we're made for is only love I might have seen it in a movie  
I might have read it in the news  
It's all around me in 3D  
Love or lose  
I might have seen it in a movie  
I might have read it in the news  
It's all around me in 3D  
Love or lose
