

# Simple

Nico Vega

Take my hand and lead me up into the promise land, I will follow you down  
No man but trofee pages in the big band stand  
I make myself a little smaller and I caught you on as a flower  
On the way I know that you want to be remember  
I know only spend my all life  
Does it this mean will be on a Sunday night?  
All that I like to see is lean behind  
I'm just happy with a simple life Uh I'm simple and you are complicated  
And what we need is a life become in trio  
Uh I'm easy and you are difficult and its beat so hard  
The thunder life to became a trio I know my dace hide my treasure and the tolery,  
Social graces and drop again all edition with a rebel stay  
I don't wanna spend wrap all life  
This all will be on a Sunday night  
Build it all, I can see and leave behind  
I'm just happy with a simple life Uh I'm simple and you are complicated  
And what we need is a life become in trio  
Uh I'm easy and you are difficult and its beat so hard  
The thunder life to became a trio And when I sleep at night I see us on our porch of olden  
we run this all night  
We caught each other like some youngers Uh I'm easy and you are difficult and its beat so hard  
The thunder life to became a trio  
Uh I'm simple and you are complicated  
And what we need is a life become in trio Uh I'm easy and you are difficult and its beat so hard  
The thunder life to became a trio
