

The Mission

Last Tuesday

Stop, stop, stop the train wreck
It's not the way, way we started out
It seems we've lost the road map
And I can't find another way
Hard times it had a hold
But now we're back on the track
Yesterday was our ambition
We can't keep this routine going
And we're moving on, this is our time
Let's start a revolution
We must stay the course to make it worth our lives
Let's start a revolution
Stop, stop, stop the train wreck
It's not the way, way we started out
Sidetracked, falling far
We're back to the way we started again
