Advisory - the following lyrics contain explicit language:

Mixed agendas
You've got the right to remain defenseless!
Trained not to think
Patriotic?
Gun, and a badge and you've got a fascist!
Slaves, to the kings
Wave your flag
Now, everyone swears that they stand for something
I'll never see
All you're lying
You think by simply hiding it changes?
I've reached my brink
No, is the word you understand?
No is the word you fear!
No, is the word you'll comprehend?
So No is the word you'll hear
I've never really needed!!
I've never really cared!!
I've never really trusted!!
No one was fucking there!!
Everyone, can see?
Everyone, but me?
Shadow boxing
You bite the hands, that buy you your finance!
Numbers and ink
Politicians
Backing the top percent of the nation?
You're not in sync!
No, is the word you understand?
No is the word you fear!
No, is the word you'll comprehend?
So No is the word you'll hear

I've never really needed!!
I've never really cared!!
I've never really trusted!!
No one was fucking there!!
Why!
Everyone, can see?
Everyone, but me?
Propaganda
The truth has emerged, the lies are retracting!
Your time is done
Compensation
Don't wanna change!
But we're gonna change it!
Under the gun!!!
