

# Black Forest

## Mursic

God of evil of the clustering hell  
If I fade as I grave  
I talked to myself for the ultimate pain  
God fall in your commandOn the direction  
The Lord will ever believe me  
Several oppression  
Make me pricklessI command the fortress of darkness  
Bring the eternal power on meOn the direction  
The Lord will ever believe me  
Several oppression  
Path of hell regressed nowI walk in the darker forest  
We live and regret, pounding the doom  
Abounding itself from the goal  
And all the blind are alone
