

I Generate A Feeling

[Pete Shelley](#)

When I close my eyes I have a world inside of me
Peopled by my thoughts of you and how things ought to be
Here I spend my time and do the things I want to do
Helps to pass the day and it keeps me happy too I, i, I generate a feeling In my psychic scenery there's a special
place I go
Here I am recharged with energy from down below
Nothing is between all we feel is just inside
Generate that feeling and the world will come alive I, i, I generate a feeling Listening to the rhythm that I hear
within my brain
Everything is different my perceptions aren't the same
When I can't believe the wonder that surrounds me
I just reach deep inside and switch on my euphoria I, i, I generate a feeling
I, i, I generate a feeling
