# A New Beginning

## Threat Signal

Face down on the way to the end
Im fighting to breathe, dont burry me
Consume our lives
Control our minds
Ive taken the strength that was left behindIm pulling deeper from within (deeper from within)
The answer bleeding through my skin
Serenity diesIf I could breathe again (if I could breathe again)
Id choose a new beginning (a new beginning)Salvation will save us all
The lacerations will heal
Rise beyond the threshold
Surpass all obstructions
We will surviveIm pulling deeper from within (deeper from within)
The answer bleeding through my skin
Serenity diesIf I could breathe again (if I could breathe again)
Id choose a new beginning (a new beginning)Im falling away from this artificial life
Omit treason passed upon the
My revelation
Beginning a new life
