Moon

Stir

Do you feel little nervous now?
Has someone come along, played you for a fool?
If that's what they told you back home, don't worry
Everything's real coolSo what's your countdown, man?
Have you been in this situation before?
It's ten minutes till your glory now
We may never see you anymorePlease, take me to the moon
Please don't worry
I'll be coming home soonOut past where the world meets the sky
Some things are better left alone
At least that's what they told me back then
Now I'm finding the rest out on my ownSo won't you tell me your countdown, man?
If you're tired of playing you're only living fool
Don't you know that your sky is wide open?
Someday your mother will be quite proud of youPlease, take me to the moon
Please don't worry, I'll be coming home soon
Please, take us all, take us all to the moon
Now is the time, we're in no hurry
We'll all be coming home soonIt's everything you'd wish for
But only if you believe, yeahPlease, take me to the moon
Please don't worry, I'll be coming home soon
Please, take us all, take us all to the moon
Now is the time, we're in no hurry
We'll all be coming home soonThe sky is wide open
Mary Mother will be quite proud of you
One with the sunrise
So proud, so proud of you
