

# I Won't Walk Away

Jewel

A lonely street lamp  
I'm out on the street walking home  
A small pale blur  
Leaving trails like a snail  
I move so slow  
Time can bruise  
Violent indigo  
Rush home to your arms  
You soothe my weary soul

[Chorus]  
Wrong or right  
Be mine tonight  
Harsh world be damned  
We'll make a stand  
Love can bind  
But mine is blind  
Others stray but I won't  
Walk away  
Walk away

The clubs are full  
Of couples resisting being one  
They wear their youth  
Like badges that tarnish all too soon  
We'll be a team  
Our two will be one  
Love will be our fortress  
When all else comes undone

[Chorus]

Sometimes the world don't make sense  
Small children filled with violence  
Let our light shine through the night
