Falling Behind

Stochastic Theory

I'm fading to grey,
losing all track of time.
I died in your arms I.
I'm shattered to pieces,
lift up my eyes,
I am falling to far.
I open my heart for you,
now I'm being something I'm not.
Memories gone; I'm falling behind.
Now, I'm standing lonely in tears,
my heart is gone,
I'm falling behind.
I'm fading away,
I'll lose in the end. (I'll lose in the end)
A reason to be,
find me a miracle.
Free my life from this torture.
What am I worth now?
My happy ending long gone.
I open my heart for you,
now I'm being something I'm not.
Memories gone; I'm falling behind.
Now, I'm standing lonely in tears,
my heart is gone,

I'm falling behind
I never felt so alone,
there's no turning back.
Forgiveness is long gone,
I'm falling behind,
I never felt so crushed.
The leeches are in me,
I'm falling behind.
I'm losing my worth now,
I'm falling behind.
My life becomes lifeless,
I'm falling behind.
Standing lonely in tears,
my heart is gone,

I'm falling behind.
Now I'm being something I'm not. (Something I'm not)
Memories gone; I'm falling behind.
Now I'm standing lonely in tears, (Lonely in tears)
my heart is gone,
I'm falling behind.
Now I'm being something I'm not. (Something I'm not)
Memories gone; I'm falling behind. (Falling behind)
Now I'm standing lonely in tears, (Lonely in tears)
my heart is gone,
I'm falling behind.
