Save Me

Michael Sweet

Here I am standing, barely with one foot on the ground
Balance is lost it can't be found
Minds are demanding, there was a time when mine was sound
It used to be free but now it's bound

Finisher, oh finisher can you Save me from myself
I am blind but I can see that my life's as good as hell
I'm not God, I'm just a man, what would ever make me think
That I could get to Heaven all alone

I'm taking on water, and at any moment I'm going down
All from the weight of my own crown

Finisher, oh finisher can you Save me from myself
I am blind but I can see that my life's as good as hell
I'm not God, I'm just a man, what would ever make me think
That I could get to Heaven all alone

SOLO

Finisher, oh finisher can you Save me from myself
I am blind but I can see that my life's as good as hell
I'm not God, I'm just a man, what would ever make me think
That I could get to Heaven all alone
