

Break Your Plans

Ideal

Whatchu wanna do?
Whatchu trying to say?
Do you wanna play?
Do you wanna go?Whatchu wanna do?
Whatchu trying to say?
Do you wanna play?
Do you wanna play with me?Ooh, baby take your time
'Cuz I know you got somebody, baby
And I know you want me so
So later meet me here at 10 o'clock, ohBut I can't call you on the phone
'Cuz you got someone at home
So hit me on my cell, 275 4321I know that you wanna be with me tonight
Break your plans with your man
'Cuz you been thinking about me all day long
Baby, break your plans with your manOh baby, understand
I'm ready if you're willing
(I'm ready to get down)To take a chance
'Cuz if he finds out
He might not like it
(He might not feel [Incomprehensible])So keep it on the down low
Don't tell nobody, oh no
What goes on between us
Stays between usSome might say that it's cheating
But all I'm doin' is creepin'
'Cuz all I know is I got you feinin', feinin'I know that you wanna be with me tonight
Break your plans with your man
'Cuz you been thinking about me all day long
Baby, break your plans with your manI know you want me
Let's get busy tonight, lady
Break your plans with your manDo you wanna play?
(Do you wanna play, baby?)
(Oh, do you wanna play?)
I know, I know, I know, I knowI know that you wanna be with me tonight
Break your plans with your man
'Cuz you been thinking about me all day long
Baby, break your plans with your manI know that you wanna be with me tonight
Break your plans with your man
'Cuz you been thinking about me all day long
Baby, break your plans with your manI know that you wanna be with me tonight

Break your plans with your man
'Cuz you been thinking about me all day long
Baby, break your plans with your man I know that you wanna be with me tonight
Break your plans with your man
'Cuz you been thinking about me all day long
Baby, break your plans with your man
