Best Friends

The Janoskians

Best friends, you are my f*cking best friends.
Yo honestly, this is the best night ever.
And this song, I'm really feeling this song.
Yo honestly, this is the best night ever.
This is the best night ever.
The f*cking best night ever.I can't remember all the sh*t that we said last night, last night.
We probably won't remember what we did, last night, last night.
I'd rather be right here, tonight with you, than with anybody else in the world.
I'd rather be right here, tonight with you, than with anybody else in the world.Best friends, you are my f*cking best friends.
Yo honestly, this is the best night ever.
And this song, I'm really feeling this song.
Yo honestly, this is the best night ever.
This is the best night ever.
The f*cking best night ever. [x2]I can't remember all the sh*t that we said last night, last night.
We probably won't remember what we did, but one thing I'll never forget.
I'd rather be right here, tonight with you, than with anybody else in the world.
I'd rather be right here, tonight with you, than with anybody else in the world, the world.Best friends, you are my f*cking best friends.
Yo honestly, this is the best night ever.
And this song, I'm really feeling this song.
Yo honestly, the f*cking best night ever."Uh, are we gonna get sued for this?"Oh, Oh, Oh. [x4]Best friends,
You are my best friends [x3]
You are my best best best best best best best best best.. Best Friends.
You are my f*cking best friends.Best friends, you are my f*cking best friends.
Yo honestly, this is the best night ever.
And this song, I'm really feeling this song.
Yo honestly, the f*cking best night ever.
The f*cking best night ever.
The f*cking best night ever.
