

# Speak Love

## Alaine

Oooh

Baby, until I see you again  
Until I can hold you near me  
And make love  
Let me speak love

Chorus:

You're so far away love.  
Miss you everyday love.  
Tell you everything that I wanna do.  
Until I feel love, Baby let me speak love to you.  
When I hear the phone ring  
Only think of one thing,  
That our loving is over due.  
Until I feel love, Baby let me speak love to you.

Verse:

It's been four weeks and seven days  
Since I felt your kiss, touched your face  
And my soul is yearning,  
Body aches for you.  
I long to taste your lips,  
I can't wait to run my fingers through your hair.  
This long distance love is so unfair.  
'Cause words are always sheer.

Chorus:

You're so far away love.  
Miss you everyday love.  
Tell you everything that I wanna do.  
Until I feel love, Baby let me speak love to you.  
When I hear the phone ring  
Only think of one thing,  
That our loving is over due.  
Until I feel love, Baby let me speak love to you.

Verse:

If you were here, I'd pull you to me.  
Hold you close and feel your heartbeat.  
Caress you gently, make you take me.

There'd be no space between us anymore.  
No need to wait for what we're ready for.  
Only endless loving to explore.

Chorus:

You're so far away love.  
Miss you everyday love.  
Tell you everything that I wanna do.  
Until I feel love, Baby let me speak love to you.  
When I hear the phone ring  
Only think of one thing,  
That our loving is over due.  
Until I feel love, Baby let me speak love to you.

Bridge:

I say I'll love you a thousand times.  
And I'll say you're with me in my mind.  
And I'll say you are my everything.  
And you should be near.  
Words could not begin to tell,  
You should be with me, my love.  
Til then I'll whisper words inside your ear.  
Until you get here.

Chorus:

You're so far away love.  
Miss you everyday love.  
Tell you everything that I wanna do.  
Until I feel love, Baby let me speak love to you.  
When I hear the phone ring  
Only think of one thing,  
That our loving is over due.  
Until I feel love, Baby let me speak love to you.

Verse:

It's been four weeks and seven days  
Since I felt your kiss, touched your face  
And my soul is yearning,  
Body aches for you.  
I long to taste your lips,  
I can't wait to run my fingers through your hair.  
This long distance love is so unfair.  
'Cause words are always sheer.

Chorus:

You're so far away love.  
Miss you everyday love.  
Tell you everything that I wanna do.  
Until I feel love, Baby let me speak love to you.  
When I hear the phone ring  
Only think of one thing,  
That our loving is over due.  
Until I feel love, Baby let me speak love to you.

Fading

If you were here I'd pull you to me  
Hold you close and feel your heartbeat  
Caress you gently, make you take me...
