Every Moment

Forever JONES

You are every breath I breathe in
You are every breath I breathe out
You are every breath in me God
Every moment in your hands, every moment in your handsYou are in the midst of chaos
Hiding me beneath your feathers
You will keep my heart from failing
Every moment in your hands, every moment in your handsYou are in my every heart beat
My first, my now, my last beat
Guiding all the steps of my feet
Every moment in your hands, every moment in your handsYou are in the midst of chaos
Hiding me beneath your feathers
You will keep my heart from failing
Every moment in your hands, every moment in your handsHe will stretch his wings to cover you when troubled times are viewed
Giving courage to the fearful heart forever standing near
Every moment in your hands
You are in the midst of chaos
Hiding me beneath your feathers
You will keep my heart from failing
Every moment in your hands, every moment in your handsOh oh oh oh oh
Oh oh oh oh
Oh oh oh oh oh
Every moment in your hands, every moment in your hands
Every moment in your hands
