Lie Low

Laika

(Uneasy EP)I don't wanna feel this way
You come and I look away
Forcing what I have to say
It's allright, baby
It's OK
We'll be together for a million daysFinding that I've nothing left
Same old words same old tired bets
Look around at the face I've kept
It's allright, baby
It's OK
We'll be together for a million daysIf love is a crop of rocks
Exposed by the tide
Wrap me up in it
'Till the day I die
When did I become
Split in two
One half's a liar and
The other half's a foolI can't face another day
One more phone ring one more drunk display
Scrub your back to wash the dirt away
It's allright, baby
It's OK
We'll be together for a million daysI don't wanna feel this way
You come and I look away
Forcing what I have to say
It's allright, baby
It's OK
We'll be together for a million daysIf love is a crop of rocks
Exposed by the tide
Wrap me up in it
'Till the day I die
When did I become
Split in two
One half's a liar and
The other half's a fool for you
