

Feared Resistance

Kataklysm

They've tried
To shut it down
They failed
Were here to stay!
Evolution is primal
Running circles around them
Unleashed the legions
Worlwide domination!
Conquer!
Betrayed by multimedia
Left to be forgotten
Corporate manoeuvres
Persist to take away
Our pride and self-esteem
They force to set the rules.
They force to set the law.
The creators of trend
NO MORE CONTROL!
We are their feared resistance!
