This Time Around

Luna

You spent the night
In a steel hotel
Where the birds whistled
Where the birds whistledYou have to wonder
What's goin' on
And maybe this time
You're overdrawnThis time around
The pressure's on
You hope for happiness
Your hands are scarredI've seen your girl
You think she's cute
Don't make her crazy
Don't make her sadThe sky is painted
Deep shades of blue
I hope for happiness
I think of youThis time around
The pressure's on
You hope for happiness
Your hands are scarredThis time around
The pressure's on
You hope for happiness
Your hands are scarredThis time around
The pressure's on
You hope for happiness
Your hands are scarred
