Thru It All

BBM

I used to think that lonely was what I'd always be
I used to lie awake at night afraid of facing my fear
But I found my strength the very day that I found you
My guiding light, just like a fairy tale come trueMy self-esteem was low, but just like Superman
You took me by the hand, made me understand
Showed me happiness was never too far thru it allYou've been at my back thru it all
You're the reason I stand so tall
You've always been there to catch my fall
You've been at my back thru it allYou've been my boo, my best friend, and my confidant
When I'm sad and blue, you're the only one that I want
And you've got a way with words that makes everything okay
You're poetry in motion, you brighten up my night and dayYou said don't be afraid and to never doubt myself
And now that I found you, I don't want no one else
Won't you take my hand? Let's reach for the stars thru it allYou've been at my back thru it all
You're the reason I stand so tall
You've always been there to catch my fall
You've been at my back thru it allYou said don't be afraid and just like Superman
You took me by the hand made me understand
Showed me you would be there when I call thru it allYou've been at my back thru it all
You're the reason I stand so tall
You've always been there to catch my fall
You've been at my back thru it allYou've been at my back thru it all
You're the reason I stand so tall
You've always been there to catch my fall
You've been at my back thru it all
