

# Thru It All

BBM

I used to think that lonely was what I'd always be  
I used to lie awake at night afraid of facing my fear  
But I found my strength the very day that I found you  
My guiding light, just like a fairy tale come true  
My self-esteem was low, but just like Superman  
You took me by the hand, made me understand  
Showed me happiness was never too far thru it all  
You've been at my back thru it all  
You're the reason I stand so tall  
You've always been there to catch my fall  
You've been at my back thru it all  
You've been my boo, my best friend, and my confidant  
When I'm sad and blue, you're the only one that I want  
And you've got a way with words that makes everything okay  
You're poetry in motion, you brighten up my night and day  
You said don't be afraid and to never doubt myself  
And now that I found you, I don't want no one else  
Won't you take my hand? Let's reach for the stars thru it all  
You've been at my back thru it all  
You're the reason I stand so tall  
You've always been there to catch my fall  
You've been at my back thru it all  
You said don't be afraid and just like Superman  
You took me by the hand made me understand  
Showed me you would be there when I call thru it all  
You've been at my back thru it all  
You're the reason I stand so tall  
You've always been there to catch my fall  
You've been at my back thru it all  
You've been at my back thru it all  
You're the reason I stand so tall  
You've always been there to catch my fall  
You've been at my back thru it all
